Introduction

Sligo County Council (SCC) recognises that in the administration of Community Grants and subsidies they are provided with a strategic opportunity to work in partnership with community groups, organisations and individuals to strengthen community capacity and to create a more liveable and inclusive county.

To avail of any grants administered through SCC, your group must be registered with the Sligo PPN (Public Participation Network). To register go to www.sligoppn.com or Tel: 071 - 9114430 for any queries in relation to registration

Goals

The Sligo Grants Programme aims to:

- Complement and support other initiatives which address Council's priorities in the Local Economic & Community Plan - LECP (<http://www.sligococo.ie/lcdc/LocalEconomicandCommunityPlan/>) and other key strategy documents, particularly at the community level.
- Promote social inclusion and community engagement by encouraging and supporting the valuable contribution and participation of the Sligo community.
- Improve the quality of life of the Sligo community and rural areas by supporting the provision of resources that enhance engagement and healthy living.
- Foster activities and engagement practises that increase participation, capacity building, and strengthen connections within the community.

Council Priorities

Sligo County Council is on the look out for projects that enhance diversity, enable community participation and decision making and contribute to the building of healthy, strong and inclusive communities. Projects should contribute to our LECP strategic themes that lay out a pathway for future development in the county. Projects will be evaluated according to how well they align with and enhance these Programme Priorities:

- Demonstrate alignment to priorities such as Healthy Sligo, Age Friendly Sligo, Migrant Integration, economic & tourism development and Environmental Awareness when submitting your application.

- Celebrating Sligo – promoting the uniqueness of our County
- Supporting programmes that create social connections and strengthen community networks.
- Building community capacity by harnessing the knowledge, expertise and spirit within our community.
- Access to services and programmes that support improvements to health and wellbeing for **all ages** and life stages.
- Exploring partnerships and innovative ways of delivering services.
- Supporting programmes and events that engage, honour and are inclusive of our diverse social and cultural communities.
- Evidence of implementing good practice in relation to social inclusion including age-friendly initiatives, universal design and inclusion of minority groups.
- Proposed events/activities must relate to an identified need¹ and bring direct benefit to priority areas/groups.

Principles

Projects and programmes supported through the Community Grants programme must demonstrate:

Inclusion & Accessibility: Be free from discrimination and enable active participation of all community members where appropriate.

Equality: Address disadvantage and offer equal opportunity to all by recognizing the individual needs of different community members.

Responsiveness: Consult with participants and service users to respond to community needs and liaise with Sligo PPN to identify community priorities

Efficiency & Effectiveness: Maximise use of community and Council resources to achieve project goals and avoid duplication and overlap

Accountability: Maintain transparent governance and reporting processes.

Sustainability: Model environmental, social and economic sustainable practice that can be shared among other groups.

Wellbeing : evidence clear pathways that will help participants and users enhance their quality of life

¹ See sligoppn.com for more information on evidence of community need

Basic Eligibility

While the specific criteria of the SCC grants differ, there are some basic criteria that all applicant groups must comply with before they even consider applying;

- ✓ Have a dedicated bank account in the name of the applicant group, not an individual
- ✓ Be in possession of a PPN Membership Number
- ✓ Be located within or offer projects within the county
- ✓ Be a Voluntary 'Not for Profit' community group, organisation or club serving a local need
- ✓ Have an official committee structure comprising at a minimum Chair, Secretary and Treasurer

Key dates with regard to grant schemes can change on an annual basis, and this is likely in 2019. The dates provided in this document, unless confirmed for 2019, are based on 2018 dates and it is important for groups to check individual dates that apply to individual schemes.

Where we are not able to give community groups a definitive timeline, Sligo County Council, supported by Sligo PPN will commit to letting the community know as soon as dates are announced and will use a variety of traditional and social media platforms to try and ensure that the information reaches as many groups as possible.

Don't forget to keep checking the PPN website <http://www.sligoppn.com/funding/> which will regularly update grant information.

Grant Oversight : Local Economic Development Committee (LCDC)

The Sligo LCDC was established for the purposes of developing, coordinating and implementing a coherent and integrated approach to local and community development. The committee is made up of representatives from the local government and local development sectors, public bodies and representatives of social, economic, environmental and community interests.

The formal establishment of the LCDC brings with it significant new responsibilities for local government in relation to the promotion of local and

community interests. National policy envisages a central role for local government in the planning and oversight of local and community development programmes while maintaining a key role for local development entities in front line delivery.

The LCDC has prepared a six year local community plan (LECP: Local Economic & Community Plan) which includes measures to tackle poverty and disadvantage, support enterprise, employment and training, develop community infrastructure and the promotion of economic development. Specifically the LCDC is responsible for the strategic coordination, governance, planning and oversight of local development expenditure by local authorities on behalf of the state or by other local development agencies and structures.

Local Action Group (LAG)

Sligo Local Community Development Committee (LCDC) is also the LAG for county Sligo with responsibility for the delivery of the LEADER programme. The LEADER Initiative (Liaisons entre actions de developpement de l'économie rurale) was established by the European Commission in 1991. It was designed to aid the development of sustainable rural communities following the reforms of the Common Agricultural Policy. The LEADER programme supports locally identified initiatives that seek to address locally identified needs and challenges.

The Lead Implementation Partner for the programme is Sligo LEADER Partnership Company Ltd. A budget of €7.6m is available for implementation of the programme in Sligo over the period up to Dec 2020. Funding will be awarded based on all approved Local Development Strategy and the awarding body will be the Local Community Development Committee (LCDC).

- ✓ To facilitate and resource cross-sectoral and partnership networks that promote health and well-being.
- ✓ To resource the development of locally-led, cross-sectoral strategies promoting health and wellbeing.

6. Community Enhancement Programme

The **CEP** provides funding to communities across Ireland to enhance facilities in disadvantaged areas.

The programme can fund or partially fund larger scale capital projects. Some funding is ring-fenced to provide small capital grants of €1,000 or less. This is aimed at assisting small grassroots community projects to get off the ground. Ring-fencing funding at this level will allow a larger volume of those with limited resources to receive some funding.

The average grant awarded in 2018 was just over €2,000.

Eligibility

The following provides a non-exhaustive list of organisations that can apply for funding under the programme:

- ✓ Government Departments and State Agencies (in cases of leveraging funding),
- ✓ Locally based community and voluntary groups in disadvantaged urban and rural areas, and,
- ✓ Not-for-profit organisations.

Organisations NOT eligible for funding

x Commercial organisations, individuals and for-profit organisations are not eligible for funding under this programme.

Eligibility Considerations

The funding can cover programmes such as: Upgrade / Renovation works to Community owned/managed buildings and facilities (e.g. Parish Halls/ Community Centres/Parks and Playgrounds/ Community Creches) or Streetscaping / Landscaping/Enhancement works to publicly owned spaces (e.g. approach roads to towns & villages, public open spaces,)

Match-funding from other sources is not a requirement under this programme. However, where an applicant has applied for a grant larger than that of the ring fenced €1,000 category, it will be necessary for the applicant to clearly demonstrate where they would source any shortfall in funding and that evidence be submitted of same

In cases where both current and capital works are carried out together, only the capital element can be funded through this Programme. Projects which would improve the quality of life for residents, providing tangible supports which address disadvantage will receive priority.

Funding could fill in gaps in Local Authority funding and make particular projects viable or improve them Funding could be applied to speed up and improve projects already identified i.e. those in planning stage or ready to implement.

DATES:

In 2018, the scheme was open for applications at the end of May. With respect to the current year (2019), all the indications are that the Department intends to launch the scheme earlier this year in late March.
