Social Entrepreneurs Ireland - The Academy

Do you have an innovative idea to solve a social problem? Are you ambitious, entrepreneurial, and passionate about social change? This six-day programme, over the course of six months, will provide you with the support and direction you need to help you to kick-start your idea and take the next steps.

The Academy, taking place in Cork, Dublin, and Galway in 2019, is worth in excess of €7,500 per project. Together with a small group of fellow innovators, you will receive:

Training & Support

Targeted training and support will accelerate your knowledge and build your skills in the key foundational areas of leading a social business, such as solution design, governance, storytelling, and leadership.

A Powerful Community

As members of Ireland's largest network of social entrepreneurs, you will have connection to and mentorship from a large number of extremely experienced social entrepreneurs currently driving social change across the country, along with Ireland's leading business experts.

Pitch for Funding

You will have the opportunity to pitch for funding as a way to progress your idea to its next stage of development. Those who have successfully completed the 2019 Academy will have the opportunity to pitch for part of a pot of €30,000.

What We Are Looking For

The Academy will provide guidance and support to people with ideas to solve societal problems, sparking a new generation of social entrepreneurs. We are seeking to identify individuals with an entrepreneurial drive and aptitude, a passion for social change, a strong understanding of the problem they are addressing, and a great idea to solve it.

What that means in more detail:

We're looking to support potential social entrepreneurs...

The Academy is for ambitious, driven individuals, who are interested in tackling a social or environmental problem. They should act in an entrepreneurial manner and be open to learning

and developing themselves through The Academy. We are accepting applications from individuals and two-person partnerships.

A societal challenge...

There are a lot of problems and issues to be addressed in Ireland so we're looking for people who can clearly demonstrate why the issue they want to address is of particular importance and why they're passionate about it. The challenge that their project is addressing can be social or environmental.

An idea....

Applicants should have an idea with the potential to solve a social problem. As social entrepreneurs don't replicate what is already being provided, but instead seek to approach issues from a different angle, the idea should be new or better than what is already done to solve this problem in Ireland. While our Awards Programme works with social entrepreneurs whose projects are already up and running, The Academy caters for those who are in the idea or conceptual stages of creating a solution.

Eligibility Criteria

- You are aged 18 years or over at the time of applying for the programme.
- You are the person leading on this idea – the main driver and decision maker.
- The primary focus of your idea is on benefiting people in Ireland.
- You have identified a social or environmental issue and have a new or better idea to solve it.
- You are available to commit to full attendance for all Academy events.

How to Apply

Energy for Generations Fund

ESB's Energy for Generations Fund sees over €2m per year disbursed across a range of community and issues-based initiatives.

Each year the Fund awards €1m in direct funding through a quarterly fund to charities working in the areas of suicide prevention, homelessness and education access and support.

ESB has been supporting initiatives in the areas of suicide prevention and homelessness since 2005. The Energy for Generations Fund introduced a new focus on education in 2014, which recognises the need for educational supports at all levels to ensure that Ireland has the skills it needs to compete effectively in the future.

The remainder is allocated across a range of initiatives including support for ElectricAid, wind farm community funds, fuel poverty programmes and support for staff volunteering.

Eligibility

Charities working in the areas of suicide prevention, homelessness and education access and support can apply to the Fund for project specific funding.

Every quarter ESB allocates an amount from the Fund for disbursement. The amount may vary because of the volume of applications received or seasonal considerations - wintertime and Christmas may require more funding than summer.

Applications submitted during each quarter are appraised at the end of the quarter and funding allocated accordingly.

How to Apply

The guideline application amount is c. €10,000. This is neither a minimum nor a maximum, rather an indication of the scale of the resources available. Average funding awards in recent years have been c. €6-7,000

Loreto Foundation Fund

The Loreto Foundation Fund is the annual income from an initial capital which was invested by the Loreto Sisters following the sale of Loreto Abbey, Rathfarnham, Dublin, their first house in Ireland.

It supports groups which are of benefit to, and improve the lives of, the most vulnerable in Irish society. It does this by focusing on specific areas of needs. The focus for 2019 and 2020 is homelessness and so the fund will only fund groups that are working in this area.

Essential Criteria

- Applications MUST be completed using the official application form (see below), using only the allocated space on the form and be returned electronically.
- Your group must have some form of governance structure e.g. Trustees, Board of Directors, Board of Management, etc.
- Your group must maintain books of account and have a system of financial reporting. You must submit a copy of your group's most recent annual report and accounts as part of your application.
- Any funding received from the Foundation must be identified separately in your financial accounts. This can be in the notes to the accounts.
- Your group will need to be clear on the specific changes and benefits that your work will provide for your users / beneficiaries. As such, your application must be clear on the objectives for your project and who will be benefiting directly from it. In addition, your objectives should be measurable in order to allow you to monitor your project and to evaluate its success.
- You must immediately receipt / acknowledge any funding received.
- You must utilise the grant within the specified time period (see timelines below).
- You must also submit an end-of-grant report, using the official end-of-grant form, in relation to the funding received. You must also submit the most recent audited /externally reviewed and signed Financial Accounts. Any funding received from the Foundation should be identified separately in your audited/externally reviewed financial accounts. This can be in the Notes to the Accounts. If it is not possible to call out separately, the Income and Expenditure, then the headings under which the incoming

grant and out-going expenditure are included, should be highlighted. Details of the expenditure made should also be provided.

Other relevant information

The Foundation has the right, at its own discretion, to nominate a representative to visit the project in order to check on progress and / or check on the financial reporting system for the project.

The maximum grant awarded is €6,000.

Grants must be used for purpose(s) for which they were given and should not be used for any other purpose without the written approval of the Foundation.

Unfortunately, demands made on the Foundation always out-strip the funds available, and this means that many good applications, whilst meeting the criteria, will still be unsuccessful.

The committee reserve the right to apply enhanced criteria when the demand exceeds the funds available.

EYF Grants - Annual Work Plan Grant

The European Youth Foundation (EYF) is a fund established in 1972 by the Council of Europe to provide financial support for European youth activities. Its purpose is to encourage co-operation among young people in Europe by providing financial support to such European youth activities which serve the promotion of peace, understanding and co-operation in a spirit of respect for the Council of Europe's fundamental values such as human rights, democracy, tolerance and solidarity.

The maximum grant allocated is €50 000. The grant awarded for an annual work plan is paid in three instalments: 60% when the signed contract is sent to the EYF by post and the conditions in the contract (if any) are met, 25% upon receipt of the interim report and the remaining 15% upon receipt of a satisfactory activity and financial report.

The following criteria are a requirement for annual work plans:

- Composed by several activities (international/other); at least one international activity;
- Clear flow/link between activities: interconnected;
- Each individual activity contributes to the overall objectives of the work plan;
- Link with priorities, missions and vision of the CoE youth sector;
- At least one third of co-funding for international activities;
- A gender perspective is taken into account throughout the whole process.
- Importance is also given to a non-formal education approach in your projects.

What kind of activities can be included?

International activities

A work plan cannot be a set of very small activities or material production only. A work plan needs to have a "European dimension" and this means it should still contain international activities (at least one).

Remember the criteria of international activities (see link): 4 nationalities represented in the team, a gender and geographical balance among participants (minimum of 7 nationalities).

You should find co-funding for the international activities. The EYF will not be able to cover more than two-thirds of the total cost of the international activities calculated together (i.e. the two-third rule will not apply to each separate international activity).

Other activities

“Other activities” can be included such as campaigns, study visits, series of workshops, “mobile” activities (activities which involve travel).

Examples of activities that can be included in a work plan as an “other” activity.

Preparatory meetings, research, needs analysis should be linked to an activity in the work plan, not an activity in itself. Material production should be the “result of” or part of the “follow up of” an activity and not an activity standing on its own.

Statutory or internal meetings (e.g. Board meetings, General Assemblies) cannot be included as separate activities in a work plan. These are covered by an EYF structural grant. If a statutory meeting takes place in conjunction with an activity supported by the EYF (e.g. a Board meeting directly after an international activity), this has to be clearly explained and the relevant costs must be separated.

Aim and objectives of an annual work plan

You will be asked to provide the objectives of each activity of the work plan and also the objectives and the aim of the work plan as a whole. The objectives of each individual activity should contribute to achieve the overall objectives of the work plan.

You need to show the relevance of the set of activities submitted to the EYF within the medium or long-term development of the organisation, but also show how this contributes to the priorities, mission and vision of the Council of Europe.

Gender perspective criteria included in all EYF grants

Special attention will be given to applications integrating a gender perspective. This should be clearly explained in the grant application. Gender perspective does not mean having an equal number of female and male participants. You should try to develop your project looking through different gender glasses, taking into account the needs of young women and men. More information on gender mainstreaming www.coe.int/equality and our gender mainstreaming page developed having in mind youth NGOs.

Eligibility

Who can apply?

- International youth NGOs;
- International networks of youth NGOs.

How to Apply

Non-governmental youth organisations must be registered before being able to submit an application.

EYF Grants - International Activity Grant

International meeting of young people or youth leaders in Europe which contribute to the work of the youth sector of the Council of Europe in topic, methodology and with a clear European dimension.

The following hard criteria are a requirement for an international activity:

- Participants must represent at least 7 Council of Europe member states*;
- It has to be run by an international team (4 nationalities represented in the project team);
- 75 % of participants under 30 years old;
- A gender and geographical balance must be ensured;
- A gender perspective is taken into account throughout the whole process.

Importance is also given to a non-formal education approach in your projects.

Until now, four working days were considered as a minimum duration for an international activity based on the principles of non-formal education/learning. However, in order to adapt to NGOs' needs, the EYF will no longer consider this duration as a hard criterion. Nevertheless, the EYF will continue to assess grant applications on the basis of their merit and the quality of the programme provided. NGOs applying for activities lasting less than four days will have to convince the EYF that the activity is based on a non-formal education approach.

Statutory or internal meetings (e.g. Board meetings, General Assemblies) cannot be supported as a one-off international activity. These are covered by an EYF structural grant. If a statutory meeting takes place in conjunction with an international activity supported by the EYF (e.g. a Board meeting directly after the activity), this has to be clearly explained and the relevant costs must be separated.

The maximum grant allocated is €20 000. The EYF will cover up to two-thirds of the total real costs of the activity. NGOs need to find additional resources to cover the remaining one-third.

Gender perspective criteria included in all EYF grants

Special attention will be given to applications integrating a gender perspective. This should be clearly explained in the grant application. Gender perspective does not mean having an equal

number of female and male participants. You should try to develop your project looking through different gender glasses, taking into account the needs of young women and men.

More information on gender mainstreaming www.coe.int/equality and our gender mainstreaming page developed having in mind youth NGOs.

What costs are covered by the grant?

Participant's travel, accommodation and food are covered. Also trainer/expert fees, production of material and renting of rooms and equipment. Volunteer time can be included up to a maximum of 10% of the total budget.

The volunteer cannot be paid (travel, accommodation, food can be covered) but the monetary value of the volunteers's contribution can be included in expenditure and income. A more detailed explanation can be seen in the Volunteer time recognition

Eligibility

- International non-governmental youth organisations can apply on their own;
- International networks of youth NGOs can apply on their own;
- Regional networks of youth NGOs can apply on their own;

Koch Foundation Grants

The Koch Foundation is an independent, private Catholic family foundation that administers grants for projects and programs that spread the Catholic faith. Established in 1979 by the founders, Carl and Paula Koch, the Foundation uses its endowment to support evangelization activities of the Catholic faith. Over the years, the Foundation has committed more than \$100,000,000 to Catholic organizations worldwide.

Irish organisations that have received funding from the Koch Foundation include:

- Congregation of the Mission of St. Vincent de Paul - \$15,000
- Sisters of the Cross and Passion - \$15,000
- All Hallows College, Dublin - \$20,000

Funding Focus

The Koch Foundation funds in five areas to promote evangelization of the Catholic faith:

1. Catholic Schools - the Koch Foundation provides funding for Catholic Schools in impoverished areas where the schools are the primary means of evangelization, or for specialized programs that have the potential to provide future Church leaders.
2. Capital Expenditures - part of the mission of the Koch Foundation is to provide financial resources in the form of Capital Expenditures for the development of Catholic organizations in promoting the Catholic faith. Priority is given to financially distressed, underdeveloped areas.
3. Mass Media - evangelization is not only the spoken word, but is also given through visual media. The use of Mass Media to carry the Word of God to all parts of the world has grown and has become an integral part of the Koch Foundation's mission. Funding is provided to programs that have developed unique methods of communication as pivotal tools of evangelization efforts to assist others to hear and see the message of the risen Christ.
4. Direct Evangelization - the mission to proclaim the Gospel, which comes from a life-giving encounter with Christ and his Church, is provided by countless men and women who have dedicated their lives to sharing Christ with others. The Koch Foundation funds Direct Evangelization programs and religious activities which directly supports, strengthens or spreads the teaching of the Catholic faith.

5. Preparation of Evangelists - the Preparation of Evangelists is central to the mission of the Koch Foundation. From education and religious formation of men and women for missionary congregations, to the spiritual development of lay leaders, we assist programs that prepare individuals for the work of teaching, as Jesus taught, and sharing the wisdom of the Catholic faith. Funding is provided to official Catholic organizations only, not to individuals.

DM Thomas Foundation for Young People Grants

Previously known as the Hilton in the Community Foundation, the DM Thomas Foundation for Young People (DMTFYP) is able to reach directly into communities and offer help where it is needed, as a funder to smaller charities and organisations that may be otherwise overlooked. We run a number of campaigns which seek to support young people.

Central Grants – structure and approval process

The Foundation has a rigorous grant process which aims to identify the most effective projects helping disadvantaged young people in the UK and Ireland.

Applications are received for quarterly deadlines from registered charities are first assessed by the Foundation office, with a shortlist of approximately 20 of the strongest and regionally representative applications put forward for consideration by our Grants Committee. The Grants Committee comprises independent members and members nominated by the Foundation's business partners and meets quarterly to discuss the applications. There is approximately £200,000 available to distribute each quarter.

Eligibility

Applications working in the areas of education or health with one of our three chosen focus groups are selected or considered:

- Children and young people with disabilities
- Children and young people who are sick in hospital
- Children and young people who are life limited (requiring palliative care)

If favoured, grant applications for up to £5,000 can be approved by the Director, up to £10,000 can be approved by the Grants Committee, and applications for more than £10,000 are recommended to the Trustees for final approval. The Foundation is a small charity and generally will not make awards of over £30,000 (per year). Funding can be requested for up to 2 years for any particular project.

Reapplications are welcome, however unsuccessful applicants are asked not to reapply for at least 12 months from the date of their rejection letter. Successful applicants are asked to wait three years before reapplying.

The Foundation receives thousands of telephone and email enquiries and hundreds of completed applications each year, making the grant award process highly competitive. To help us to help you, please read our application guidelines and restrictions carefully. Unfortunately, with a limited grant fund we are unable to respond favourably to all requests, however worthy. We provide specific feedback on grant rejections where guidance and improvements can be made however due to the volume we are unable to provide specific feedback to first round rejections given the competitive nature of the process.

Local Agenda 21 Environmental Partnership Fund

The LA21 Environment Partnership Fund which has operated since 1997, promotes sustainable development by assisting small-scale environmental projects at local level.

The projects involve partnership arrangements between local authorities and various local groups including community groups, schools and environmental NGOs.

The Fund encourages involvement of local communities in local action and decision-making and assists them in working towards the goal of sustainable development. The value of the scheme is enhanced by the voluntary effort that it facilitates.

The LA21EPF assists sustainable development from the ground-up and facilitates, at local level, the achievement of the objectives of the Agenda 21 action plan on sustainable development which was agreed at the UN Conference on Environment and Development in Rio de Janeiro, in 1992 (the "Earth Summit"). Renewed political commitment for sustainable development was secured at the Rio +20 Conference in Brazil in June 2012, on the 20th anniversary of the "Earth Summit".

The LA21 EPF is administered by local authorities, while the Department maintains a co-ordinating role. Eligible projects are those which support and complement, at a local level, national environmental policies such as those on Waste, Biodiversity, Climate Change, Air, Water and Sustainable Development. Local authorities are required to provide an equivalent amount of funding to successful projects as the funding provided by the Department. Funding can also be supplemented by other sources, e.g. the private sector, in order to maximise the potential for partnership arrangements.
