1 Introduction

Voluntary organisations are hugely challenged with loss of income from their traditional sources as a result of Covid-19. The financial challenge is compounded by time-consuming Covid-19 responsibilities and in some cases reduced availability of volunteers. Many organisations are having to re-think how they work, where they can save on expenditure, become better at applying for the traditional sources of funds and more innovative in finding new resources. New Options for Funding is a manual aimed at practically helping not-for-profit groups to work together effectively in meeting these challenges and keeping their operations running.

2 Content

In this manual you will be able to work through options in adjusting how you operate, become more focused and prepared for application and fundraising, identify new online and off-line ways of fundraising during Covid-19 and become more up-to-date on grant and loan sources for the development of social, community, health, enterprise, educational, arts and other objectives.

Please note that the manual applies to all 26 counties. There will be some variations at county level in relation to grant availability and timings. Always check with your local Public Participation Network (PPN)

The manual accompanies tailored live online sessions where participants receive a presentation, are guided through the best use of the manual and take part in live Q&As.

3 How to use this manual

3.1 A work-book format

The manual is laid out like a workbook drawing together the key steps to improve your organisation's overall resources and finances. It contains blank tables for you to complete. If there are not sufficient tables then add as many as you need.

References are also provided throughout the manual so that you can refer to more detailed information and application forms.

3.2 Layout

In Chapter 4 "Re-adjusting operations" we set out a process you can follow if you need to re-set your goals following Covid-19, suggest ways to re-adjust your operations and re-profile the roles of staff and volunteers. This can impact on the type and the amount of funding you are seeking.

"Knowing your place in the world of funding", Chapter 5, helps to identify which types of income generation broadly suit your organisation and plots the adjustments you might need to make. It prompts you to consider the relative weight you give to different options such as gifts, grants, contracts or open market activities and explains what these are.

In Chapter 6 “Advanced application preparation” we set out the key questions that most funders ask. This will help you be ever-ready to apply for the opportunities that can sometimes come with submission deadlines which are difficult to meet.

“New approaches to fundraising”, Chapter 7, draws on experience around Ireland and globally and gives over 30 techniques and examples of how we can attract resources and raise funds differently during a pandemic and in the post pandemic world.

Chapter 8 “Crowdfunding” refers to some of the key online crowdfunding platforms used by the voluntary sector and shows you how to decide on the best ones for your needs.

“Sources of grants and loans”, Chapter 9, provides information on approx 100 different sources for financing social, community, health, enterprise, educational, arts and other objectives. It provides the links to help you self-manage your own permanent online database of funding sources relevant to your cause.

In Chapter 10 “Your funding options plan” we suggest a template for how you can use the learning to garner your group’s resolve to meet the challenges of attracting funds and operating viably during and after Covid-19.

4 Re-adjusting operations

4.1 Introduction

This section sets out three principle adjustments you may have to make in your organisation, all of which will impact upon either expenditure or income. This first step will help ensure you take account of potentially vital changes to the underlying finances of your organisation before you decide where to focus your fundraising.

We walk you through three considerations:

- What are the potential costs of the new risks that you face by operating in a pandemic?
- What are the Covid-19 compliance adjustments you have to make to operate safely?
- What will be the changes to work practices? Estimate the cash loss or gain of these changes.

4.2 Costing risk

4.2.1 Overall impact

The exercise below is designed to assist not-for-profit bodies to estimate the financial impact of the changes taking place as a result of Covid-19 by estimating, even in general terms at this stage the financial impact of:

1. Complying with Covid-19 protocols
2. Adjusting services to users because of Covid-19 or other changes
3. Assessing if there are any changes to the regular annual overheads of running the service
4. Deciding whether you need to undertake any new capital projects.

Either just answer yes or no in the table below or put in amounts if you have them. Don't let it stop you moving on.

1	2	3	4		5
Key areas	What are the changes for the 12 months ahead?	Financial cost or gain	Increases or decreases to hours for:		The financial costs/gains of all changes in columns 2,3 & 4
			Employees	Volunteers	
Covid-19 compliance	PPE and other physical measures				
	Changes to staff working conditions and work practices				
	Using less or more physical space				

[Type here]

Operational changes	Adjustments to your operations required by users of your service, other than above				
All other normal overheads					
Other planned capital expenditure					
Total impact					

4.2.2 Annual impact

How are the costs above spread over the years? As above, don't feel you have to put detailed answers in place. However, try to come up with overall estimates. This will help you get a fix on how much additional support, if any, you will need in the year ahead.

Area	Description	Year 1	Year 2
Covid-19 compliance	PPE and other physical measures		
	Changes to staff working conditions and work practices		
	Using less or more physical space		
External	Adjustments required by users of your service, other than above		
Other overheads			
Other capital			
Total impact			

4.2.3 Knowing the facts about finance

If you have undertaken the above exercise you will now be able to answer the following:

Question	Your answer
How many additional volunteering hours do you need now and next year?	
By how much have your overheads increased or decreased now or next year?	
What additional or reduced capital costs will you have?	

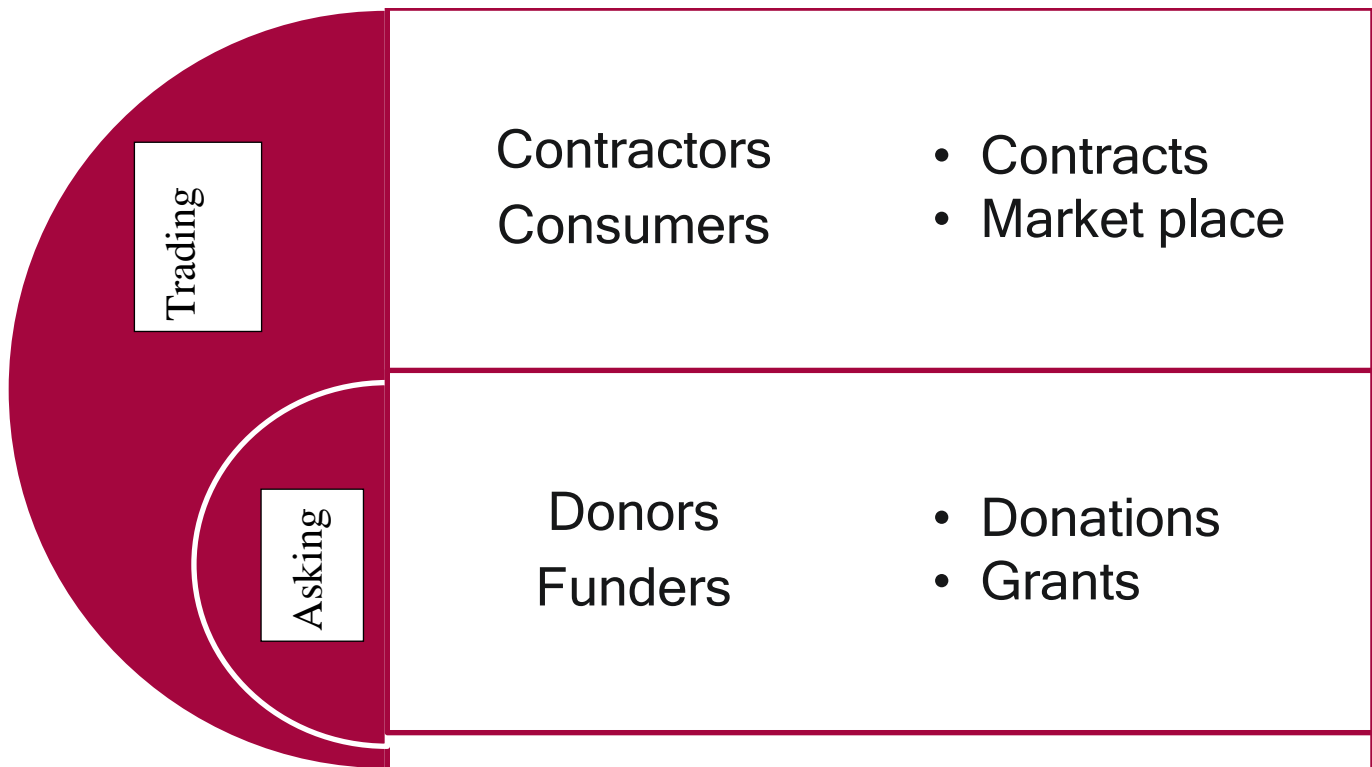

5 Knowing your place in the world of funding

5.1 Introduction

With the large adjustments that are taking place, perhaps your position in the world of funding has changed. Are you for instance shifting from asking for money to earning money or vice versa?

[Type here]

Take a look at the chart below, decide where you are now and where you might need to take your organisation one year from now.

If you are an organisation that asks for money then are you asking donors to give you donations or funders to give you grants? If you are earning money then are you supplying contracts to contractors or providing services or goods to consumers in the general market place?

5.2 Position in the funding spectrum

Now establish where your organisation has shifted to in the world of funding since before Covid-19. Establish in overall terms the % of income you had from the four categories below pre-Covid-19 and the projected % you will need from each category below now or in future.

Then work out what that means in terms of actual amounts targeted for these different categories.

[Type here]

Financial dependency - 4 categories	% of our income annually Pre Covid-19	% of income targeted for 2021 or 2022	€ amount in future year i.e. 2021 or 2022
Getting grants from funders			
Getting donations from donors			
Supplying specific contracts to contracting organisations			
Trading in the general market place			
Total turnover	100%	100%	

You will now have established how much you should be getting from one or more of the four main ways of getting money into your organisation.

6 Advanced application preparation

6.1 Introduction

You are now clear on the relative levels of focus you should give to preparing to bid for or earn resources from each of the four categories in section 5 above. There is vital background preparation you can now commence even without any obvious deadline for submission of applications.

6.2 Common questions to work on

These questions revolve around four key areas:

- Internal questions about your organisation
- Questions about your project
- Questions about people, networks and communications and
- Money questions

8 Crowdfunding

8.1 What is crowdfunding

The practice of funding a project or venture by raising many small amounts of money from a large number of people, typically via the Internet.

Some key aspects:

It is quick and easy to get set-up – there are good step by step guides on the websites

People can donate from their own home and you can organise from yours!

There are charges to consider – usually based on each donation made and sometimes a “platform fee” too

How the money is withdrawn from or deposited into an account needs to be well controlled. You need to have this aspect well planned.

8.2 Choosing a crowdfunding platform

8.2.1 Introduction

There are many crowdfunding platforms to choose from. Here are some popular sites currently being used by Irish voluntary organisations for fundraising:

- ifundraise.ie
- idonate.ie
- fundit.ie
- gofundme.com
- gogetfunding.com

There are many others and this is a rapidly developing field. We have compared these five platforms below to assist you in deciding which of these or other platforms might best suit your needs and the key things to watch out for.

8.2.2 Background

	idonate.ie	ifundraise.ie	fundit.ie	gofundme.com	gogetfunding.com
Background	Established 2011 to assist charities & non-profits in fundraising. Largest platform in Ireland used by 2000+ not for profits Part of a network (including ifundraise.ie) based in Galway.	Established 2013 as specialist in club and school fundraising. Based in Galway. Has over 1,000 groups registered	All-island Irish website for Ireland's creative projects, run by <i>Business to Arts</i> , a not-for-profit organisation working to support resilience and transformation in the cultural sector	Largest crowd funding platform world-wide. Used by many Irish fundraisers; based in the USA	Established 2011 based in USA

8.2.3 Set-up and fees

	idonate.ie	ifundraise.ie	fundit.ie	go-fundme.com	gogetfunding.com
Set up and fees	Quick to set up; no set up costs or annual costs 4% platform fee on each donation + variable transaction fee depending on payment method (for example 1% extra if credit/debit card)- donors are asked if they wish to cover this and "most do"	Quick to set up; no set up costs or annual costs 4% platform fee on each donation + variable transaction fee depending on payment method (for example 1% extra if credit/debit card)- donors are asked if they wish to cover this and "most do"	Basic fee of 5% and 3% to cover the transaction and other costs for processing your pledges. No charges are made unless a project reaches its funding targets within the allotted campaign time.	Easy to set up. No set up fee or platform fee; transaction fee of 2.9%* + €0.25 per donation *VAT Included	Easy to set up. It's free to start a campaign and charge is 4% on the amount raised. processing fees are an average of 2.9%

8.2.4 How it works

[Type here]

	idonate.ie	ifundraise.ie	fundit.ie	gofundme.com	gogetfunding.com
How it works	<p>Create a fundraising page – either</p> <p>1) “<u>Once Off Fundraising Page</u>” showing total amount raised along with individual donor’s name & amount donated, typically this is used by people raising funds for a personal cause or local causes.</p> <p>2) <u>Ongoing Fundraising account</u> – ideal for schools, sports clubs, groups, or where the cause has the support of fundraising pages. The cause profile page will not show a running total of donations or individual donations. Users can donate privately to the cause. Also, individuals can create personal fundraising pages in aid of the cause.</p>	<p>The system allows the owner / administrator create a profile for the Cause, to which donations can then be made directly (private donations). A supporter (fundraiser) may also setup a Fundraising Page where he/she does an Event in support of a Cause.</p>	<p>“All or nothing funding”; this means that <i>Fundit</i> obtains card authorization from Funders to debit their account if the given Project reaches its goal. If a Project does not meet its funding goal <i>Fundit</i> will not debit the card, meaning that your Project will receive nothing.</p>	<p>Offers a Go-FundMe Donate Button that you can embed on your website or blog to easily promote your fundraiser and encourage others to donate. The Donate Button showcases your main fundraiser image, your fundraiser title, the amount you’ve raised—and most importantly? It contains an active link to your fundraiser that takes people directly to your donation page.</p>	<p>Set up a fundraising page and email contacts to invite them to donate. Tends to be used more for individual events rather than causes.</p>

9 Sourcing grants and loans

9.1 Introduction

We list below sources of grants from within Ireland divided into colour coded categories of mixed, Arts/Culture Including Tourism, children and young people and including education, enterprise, environment/outdoors/local infrastructure, supported employment and wellbeing.

Title	Mixed	Arts/culture in-cluding tourism	Children, young people and community edu-cation	Enterprise (mainly social)	Environment/outdoors/local infrastructure	Supported em-ployment	Wellbeing and sport
Colour code							

Where available we indicate the grant’s name, purpose and eligibility, typical allocation (where information is available), deadline and who admin-isters it.

We have included some grants whose deadline may have passed or closed. This is because the situation can change suddenly and we thought it best that you could develop your own database where you can check periodically for those grants of particular interest to you.
